REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims have been allowed because the applicants' arguments concerning U. S. Patent 6,881,393 B2 submitted with their Amendment filed on Nov. 29, 2006 have been found persuasive. The applicants have successfully pointed out that U. S. Patent 6,881,393 B2 does not mill together "cobalt-, manganese-, nickel- and lithium-containing oxides or oxide precursors" as recited in instant claim 1. In the process of U. S. Patent 6,881,393 B2, the starting material for the milling step is an already-formed oxide of lithium and a transition metal. Further, the applicants have successfully argued that U. S. Patent 6,881,393 B2 does not provide any motivation to form an O3 compound (as set forth in applicants' claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
